

No longer can I pick up the phone at home, whether is a regular weeknight or weekend, I continue getting these very annoying marketing/fundraising calls.

I have signed up for the 'do not call" program, however, some of these callers identify themselves as a "government" related agencies and therefore the program doesn't apply to them.

It is already enough receiving all the marketing via mail, all the popup windows on the computer, we should feel free and relax at our own house.

I want to be able to block out calls them same way that I can block out emails.
